

## **ENVIRONMENTAL POLICY STATEMENT**

**JP Flynn Construction Ltd**, are committed to minimising the environmental impact of their activities and aims to achieve continuous improvement in environmental performance.

Our Environmental Policy shall earn the confidence of employees, shareholders, customers and the general public by demonstrating our commitment to comply with all relevant environmental legislation and minimise pollution, resource use and waste, where feasible, through the continual improvement of performance in all areas of the Company

In order to achieve this the company will:

- Keep abreast and comply with legislation, regulations and codes of practice on environmental matters relevant to their operations.
- Minimise the environmental impacts of their Company and their effects on local communities by keeping the Company orderly and tidy, conserving natural habitats and wildlife, archaeological heritage; and adopting reasonable controls for preventing air, ground, water and noise pollution.
- Regularly measure and evaluate our environmental performance, and improve where necessary.
- Communicate with and be sensitive to local communities and others with an interest in their environmental policies, plans and performance.
- Ensure that sub-contractors adhere to environmental policies and procedures with consistent increased awareness through necessary training to all our employees and customers to ensure environmentally responsible concepts are integrated into their normal working practices.
- Use all forms of energy efficiently so as to not waste resources or cause unnecessary pollution.
- Set environmental objectives and targets that are consistent with this policy and other company policies, and monitor performance.
- Monitor and review environmental performance and audit compliance to procedures to ensure standards are being maintained whilst highlighting potential areas for improvement.
- Identify and mitigate against potential accidents that could result in an environmental impact, so that if an accident did occur the consequences would be minimised.
- Promote environmental awareness and commitment whilst promoting a culture of continual environmental improvement within the company.
- Minimise waste through a commitment to reuse, recover or recycle, where feasible
- Establish emergency procedures and notify clients and competent authorities of environmental problems encountered during construction, and jointly resolve such issues.

It is our duty to ensure that good environmental management is practised in all contracts and projects that we are involved in. We will seek to influence customers to demonstrate a positive environmental commitment. Company management are responsible for ensuring compliance with this policy and reviewing performance within the work place.
